GENERAL INFORMATION ABOUT BRNO ARTISTS IN RESIDENCE:

The Brno House of Arts international residency program has been launched with the objective to develop opportunities for an exchange of ideas and opinions between the Czech and international arts scenes, and for further expanding the current position of the Brno House of Arts as a complex intermediary of contemporary art towards an active artistic environment.

Visual artists in various disciplines, curators and researchers in the field of contemporary art, architects and designers are invited to take part in the residencies. The residency is conceived as a medium for the realization of artistic projects and experiments, as a format for artistic activities that need not necessarily lead to an exhibition in the traditional sense of the word, but also to other means of presentation. Research projects mapping the environment and introducing new stimuli, and especially socially engaged projects that induce further discussion, are most welcome.
